

HTW Chur

Hochschule für Technik und Wirtschaft
University of Applied Sciences

Hochschule für Technik und Wirtschaft HTW Chur

29. April 2019

Goal of this presentation

- Show a possible cooperation between moodle and evento
- Functionality of the Plugin
 - Automated course-creation
 - Automated course-enrolment
- Future plans
- Collaboration
- Time for questions and ideas

Responsibilities at HTW Chur

Facility Assistant:
Manage evento and creates courses in moodle

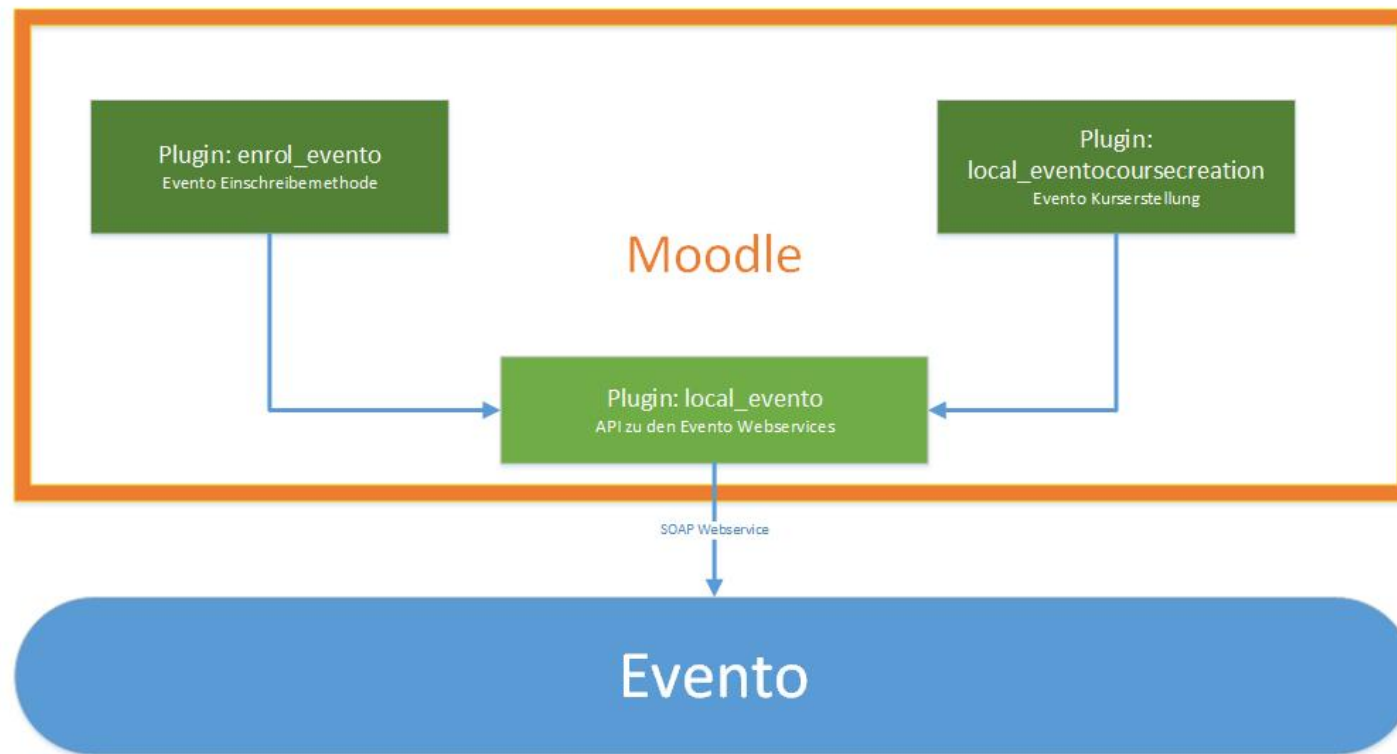

IT HTW Chur
Supports interface between evento and moodle

Blended Learning Center:
Development and support moodle plugin

Functionality of the two Plugins

Evento Integration Architektur

Automated course-creation

- Conditions:
 - Course must be in future
 - Last Course change in evento is not older than a year
 - A Course categorie is configured in Moodle
- Flowdiagramm of the Plugin (PDF)
- Example from HTW Photonics (Springsemester 19)

Automated course-enrolment

- Conditions
 - Valid course is in future or running
 - There must be a valid participants IT Account
 - Running courses just synchronise when visible
 - Course-number must fit with Eventocourse-number
 - Participant must have a valid register status in evento
- Flowdiagram of the Plugin (PDF)
- Example

Future Plans

- Extension for a more individual Course name (e.g. lecturer, class etc.)

Collaboration

- HTW is interested in a collaboration to develop the plugin further
- Course-creation plugin
 - https://github.com/BLC-HTWChur/moodle-local_eventcoursecreation
- Enrolment plugin
 - https://github.com/BLC-HTWChur/moodle-enrol_evento

Thank you very much for your attention
