## Today: Collaboration in virtual spaces with Mozilla Hubs

In this online-activity, we will gain further experience with avatar-based virtual reality/flat-mode collaboration – where we try out some scenarios for collaboration in virtual space with [Mozilla Hubs](#).

The screenshot shows the Mozilla Hubs website homepage. At the top, there is a navigation bar with links for "What's New", "Source", "Community", "Spoke", "Docs", and "Hubs Cloud". On the right side of the navigation bar, it says "Signed in as w.b...@basleinsitute.ch" with a "Sign Out" link. The main content area features the "hubs by mozilla" logo, a description: "Share a virtual room with friends. Watch videos, play with 3D objects, or just hang out.", and a prominent pink "Create a Room" button. Below this, there is a link "Have a room code?" with a blue arrow pointing to it from the right, and a text prompt "Add the Hubs Bot to Discord". The footer contains links for "Join the Conversation", "Subscribe for Updates", "Report Issues", "Terms of Use", and "Privacy Notice", along with the "moz://a" logo.

The screenshot shows a web browser window with the address bar displaying "yopad.eu/p/digital-collaboration". The browser's toolbar includes navigation buttons (back, forward, refresh), a search icon, and a user profile icon. Below the toolbar is a rich text editor with a menu bar containing bold (B), italic (I), underline (U), and strikethrough (ABC) options, followed by list and link icons, undo/redo, a link icon, a chat icon, and a "Normal" style dropdown. The main content area displays a large green heading "Digital Collaboration Interaction ROOM". Below the heading, the text reads "Wir sind in diesem Raum: hub.link/pkEGZfA" and "Code: 367 457". A vertical list of numbers 1 through 8 is visible on the left side of the content area, and a vertical scrollbar is on the right.
