Moodle Plugin StudentQuiz 3.0

- StudentQuiz makes Moodle content student-driven.

- StudentQuiz enables students to collaboratively create their own question pools.

- Students can filter questions into quizzes, and they can rate and comment questions while working through the quizzes.

- StudentQuiz collects usage data for each question and ranks students based on their contribution and answers.

- The Personal Learning Assistance shows each student his/her individual learning progress and compares this with the community.

- Created questions become part of the Moodle question bank and can be reused in other Moodle quizzes.

- StudentQuiz was developed at the HSR University of Applied Sciences Rapperswil, is open source GPLv3, and can be downloaded from the Moodle Plugin Directory.

StudentQuiz Exercise

- **Access to HSR Test Server**
  - https://studentquiz.hsr.ch
  - Use one of these test accounts
  - Go to *StudentQuiz 3.0 Demo Course* and pick activity *StudentQuiz Eduhub*

- **Hands On**
  1. Contribute one or more questions to *StudentQuiz Eduhub*
  2. Filter and run your quiz
  3. Answer, rate and comment the questions
  4. Check your progress bar and ranking

- **Next Steps**
  - Please leave your feedback in the demo course
  - You can come back to this demo site as often as you like. You can also create your personal account for this site.
  - Feel free to contact frank.koch@hsr.ch
