SIG e-Portfolio

SIG Leader: Patrick Roth, UNIGE

The aim of the SIG e-Portfolio is to determine the usage of e-portfolio elaborating pedagogical recommendations and defining if there is a common need for a national instance of an e-portfolio that would among other features cover lifelong storage. In order to do so, the SIG launched a survey to identify e-portfolio practices and needs, and since then organises workshops to focus on pedagogical and technological aspects. After having produced several types of guidelines, the focus will now be on raising awareness for e-portfolios. The aim is to help new users getting started by informing them about existing possibilities, introducing practical examples and giving them guidance.

SIG e-Portfolio

SIG leaders: Patrick Roth, UNIGE; Paul Raper, FHNW

The SIG e-Portfolio was launched in 2010 and is composed of teachers and academic staff of Swiss Higher Education Institutions. The aim of this SIG is to share new ideas and good practices regarding the use and implementation of e-portfolios in higher education. These practices include the reflective process, competency awareness and formative assessment. Over the past seven years, the SIG e-Portfolio has produced various guidelines and organised several events.
